

# Workshop

## FIELDWORK: METHODS AND THEORY

After keynotes we walk together to the eight floor to have presentations and thematic discussion groups.

Presentations are 20 minutes with 10 minutes for question and discussion.

The thematic groups are intended to be hands-on and focus on a certain fieldwork challenge and possible solutions to this. We split into different groups to discuss (30 min) and then bring back our ideas and suggestions to the whole group (30 min).

We hope that this will enable sharing of experiences and active participation by everyone.
